

A close-up photograph of a chef in a white uniform, focused on pouring liquid from a large stainless steel pot into a smaller container. The chef's face is in profile, looking down at the task. The background is dark and out of focus, with a bright light source creating a lens flare effect. The overall mood is professional and culinary.

# MCTC Catering Corporate Services

# MCTC

MCTC is a global catering management and training business whose primary vision is to offer high quality meals that suit a healthy lifestyle. For MCTC, good food not only excites the taste buds but also plays an active role in promoting physical and mental wellbeing.

To this end, all of our chefs undergo extensive training to ensure that they are able to deliver meals that support MCTC's ethos. Having completed their training, chefs continue to receive support and consultancy from a team of nutrition experts, consultants and multi-national chefs.

MCTC Corporate Catering and Consultancy Services is available to airport terminals, hospitals, cantinas and hotels. With a choice of two different levels of service, we are able to offer a package to suit all requirements.

## PREMIUM PACKAGE

For clients who want to outsource their catering operation, we are able to manage the entire function, including staffing and all meal preparation. This is all underpinned by our pre-placement training, quality systems and certification alongside ongoing access to our nutrition services.

## ENTERPRISE PACKAGE

For those who require support for their own in-house catering team, we are able to consult at an early stage, advising on the development of menus specific to the needs of their staff and guests. Our teams of chefs and nutritionists are all trained in a wide range of cuisines, ensuring that they are able to cater for the tastes of all nationalities. Once this stage is completed, we will implement the in-house set up ensuring that our rigorous quality systems and certification are implemented alongside the provision of ongoing access to our nutrition services.
